RF Micro Devices to Webcast Analyst Day Presentations on Thursday, November 10, 2005

GREENSBORO, N.C., Oct. 28 /PRNewswire-FirstCall/ -- RF Micro Devices, Inc. (Nasdaq: RFMD), a leading provider of proprietary radio frequency integrated circuits (RFICs) for wireless communications applications, today announced it will host an Analyst Day in New York City on Thursday, November 10, 2005 beginning at 7:00 am ET. The event, which will be webcast live, will include presentations by Bob Bruggeworth, president and Chief Executive Officer; Dean Priddy, Chief Financial Officer; Eric Creviston, corporate vice president of cellular products group; Dave Lyon, vice president of wireless connectivity; Vic Steel, vice president of corporate R&D; and Alastair Upton, managing director of strategic marketing. Presentations by company executives will begin at approximately 7:15 am ET and last until approximately 11:00 am ET.

The simultaneous live broadcast of the event will be available over the Internet and can be accessed by any interested party at <http://www.rfmd.com>, by clicking on "Investor Info," and at <http://www.fulldisclosure.com>. The webcast will be listen-only and will be accessible and archived for replay at <http://www.rfmd.com>.

RF Micro Devices, Inc., an ISO 9001- and ISO 14001-certified manufacturer, designs, develops, manufactures and markets proprietary radio frequency integrated circuits (RFICs) for wireless communications products and applications. The Company is a leading supplier of power amplifiers, one of the most critical radio frequency (RF) components in cellular phones. The Company is also the leading manufacturer of GaAs HBT, which offers distinct advantages over other technologies for the manufacture of current- and next- generation power amplifiers. The Company's products are included primarily in cellular phones, base stations, wireless local area networks (WLANs), cable television modems and global positioning systems (GPS). The Company derives revenue from the sale of standard and custom-designed products. The Company offers a broad array of products including amplifiers, mixers, modulators/demodulators and single-chip transmitters, Bluetooth® products and receivers and transceivers that represent a substantial majority of the RFICs required in wireless subscriber equipment. The Company's goal is to be the premier supplier of low-cost, high-performance integrated circuits and solutions for applications that enable wireless connectivity. RF Micro Devices, Inc., is traded on the Nasdaq National Market under the symbol RFMD. For more information about RFMD, please visit <http://www.rfmd.com>.

This press release contains forward-looking statements that relate to RF Micro Devices' plans, objectives, estimates and goals. Words such as "expects," "anticipates," "intends," "plans," "projects," "believes" and "estimates," and variations of these words and similar expressions, identify these forward-looking statements. RF Micro Devices' business is subject to numerous risks and uncertainties, including variability in quarterly operating results, the rate of growth and development of wireless markets, risks associated with the operation of wafer fabrication, molecular beam epitaxy and other foreign and domestic manufacturing facilities, our ability to attract and retain skilled personnel and develop leaders, variability in production yields, our ability to reduce costs and improve gross margins by implementing innovative technologies, our ability to bring new products to market, our ability to adjust production capacity in a timely fashion in response to changes in demand for our products, dependence on a limited number of customers and dependence on third parties. These and other risks and uncertainties, which are described in more detail in RF Micro Devices' most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission, could cause actual results and developments to be materially different from those expressed or implied by any of these forward-looking statements.
